To Whom It May Concern: *update in April - Let me add I have heard about positive changes being made at our library in this area. Thank you for that.*

I checked this book out for my 9-yr-old daughter, so excited to find a graphic novel of Anne. I did not appreciate that there was no warning for me, as parent, to consider that the ending had been changed to make Anne and Diana romantic girlfriends, sealed with a kiss. My daughter discovered this on her own. I would like to know ahead of time if something like

this is in a book I hand to my child. Please consider this an official complaint. Look at things from a parents' perspective, please. Sure, there may be topics that need to be considered for discussion with my children, but I would like to choose <sup>approach</sup> how and when to discuss these topics.

Thank you for considering my opinion.

Sincerely,
