**Agenda Items**

**City of Ozark Easement Request for Fremont Road Property** *(Though originally posted as agenda item #4, this discussion was moved up due to presenter time constraints.)*

Public Works Director for the City of Ozark, Jeremy Parsons, presented plans to construct a sidewalk on N. Fremont Rd. through Christian County Library’s property. The city is requesting that the Library donate a portion of their property as a temporary easement for construction and then as a permanent easement after completion. They are hoping to get landowner permissions signed by the end of August, begin construction in January of 2021, and finish construction by April of 2021. After discussing the potential options and legal obligations, the Library’s Board of Trustees requested that at least two alternate plans be drawn up specifying the total acreage requested for donation and mapping out the proposed route in a detailed way with the proposed road route and dimensions superimposed on a topographic map of the Library’s property. They requested these plans at least one week in advance of whichever Library Board of Trustees meeting the City plans to attend so that the plans can be carefully considered and provided to both the Library’s attorney and contracted real estate agent for review before being voted upon.
