Please describe what content you find objectionable, including the location. If this is a specific collection item (book, audiobook, magazine, etc.) provide the title, author, and format.

Highlife Dvd Porn

There is a difference of people having sex but this movie shows pornography along with little children private parts. The back of the case - movie description does not give any clue I would be watching pornography. This is absolutely not appropriate for access to children, needs to be in an adult store.

If you are requesting the item or service to be removed from the library, can you suggest other materials or services to take its place?

store.
or burned.

It's a space movie, there are several good ones to choose from
