

August 31, 2023

We received your Request for Reconsideration form regarding the book *Sissy: A Coming-of-Gender Story* by Jacob Tobia. While this item was temporarily on display, that display was taken down as scheduled and the item returned to the Adult Biography section.

The display this book was on was next to the Adult Fiction collection, which is also near the teen area. The Nixa branch is limited in space, but we understand the concerns about materials being in close proximity to the teen area and confusion over the intended audience. We have reevaluated the location of that display shelf since it typically contains materials from the adult collection and have moved it further from the teen area.

We hope this change for future displays will be helpful but also encourage patrons to make use of finding aids like spine labels and shelf signage to determine audience. Please feel free to check with staff or check the online catalog for more details about book content.

Please feel free to contact me if you have any further questions or concerns.

Sincerely,
Renee Brumett, Executive Director
Christian County Library
